

Jonathan Barani

Finance Transformation | Advisory | Business Analysis | Project Execution

Belgium | baranijonathan@gmail.com | +32 477 80 71 46 | Available Q1 2027 for Luxembourg-based Master 2 internship

Master student in Management Sciences with a major in International Finance, combining finance coursework, business analysis and founder-level project execution. Available from Q1 2027 after an academic exchange in Turkey. Best positioned for finance transformation, PMO, advisory and business analyst internships where structured thinking, stakeholder coordination and clean deliverables matter more than pedigree theatre.

SELECTED PROJECT

Selected International Finance Project - Macroeconomic Risk Assessment

International Finance, 2025-2026

- Built a CFO-style risk assessment for a USD 100m VLCC delivery contract exposed to ARS/KRW currency mismatch and convertibility risk.
- Combined macro diagnosis, fiscal and monetary policy review, linear FX forecasting, CGER/EBA logic and currency crisis models.
- Recommended a layered risk mitigation plan using contractual protection, offshore escrow logic, NDFs, USD/KRW forwards and options.

PROFESSIONAL EXPERIENCE

Founder & Strategic Manager - Scrolly The Map - Blockchain Project

Jan 2024 - Feb 2025

- Owned launch strategy, roadmap coordination and stakeholder communication for a blockchain project deployed on the Scroll ecosystem.
- Translated product, market and community feedback into operational priorities, user engagement actions and release decisions.
- Coordinated fundraising conversations and partner communication while maintaining a clear external narrative for a technical product.

Community Manager & Release Manager - The Knittables - Blockchain Project

Jan 2023 - Dec 2023

- Managed an international Web3 community across Discord, X/Twitter and Telegram, including moderation, support and conflict resolution.
- Acted as interface between users and technical teams, consolidating feedback and aligning release communication across channels.
- Supported cross-functional launch execution with remote contributors in a fast-moving and high-uncertainty environment.

EDUCATION

Master in Management Sciences, Major in International Finance - UCLouvain - Louvain School of Management, Belgium
